**Campus Supports & Incentives
for 21st Century Scholars**

2015-2016

Revised March, 2016

Using Your 21st Century Scholarship

How the 21st Century Scholarship works:

- Can be used to pay regularly assessed **tuition and fees** at a public college in Indiana
- Does not cover room, board, books, or other expenses associated with college enrollment;
- Valid for **8 semesters** of full-time enrollment at a four-year institution (which may initially include 4 semesters at a two-year institution).
- Students must enroll in an eligible Indiana college or university within one year of graduating high school;
- Students must enroll as full-time students to receive the Scholarship. (Recommendation: take 15 credits per semester to stay on track to meet 21st Century Scholar completion requirements and graduate on time.
- Funds are disbursed directly to the institution on behalf of the student, **NOT paid directly to the student**; the 21st Century Scholarship should be listed on students' award notification letter and **applied directly to students' bursar accounts**.

In order to receive the full 21st Century Scholarship Award each year, students **MUST**:

1

File a FAFSA by Indiana's March 10th priority deadline and make all corrections by May 15th.

2

Complete at least 30 credit hours by the end of the first academic year; 60 credit hours by the end of the second academic year; and 90 credit hours by the end of the third academic year.

Credit hour requirements can include college credit earned in high school and in summer college courses. 21st Century Scholarship can be applied toward summer tuition if student has unused funds (check with home institution's financial aid office.).

21st Century Scholars who complete fewer credits may be eligible for Frank O'Bannon Grant (FOB)—which pays a fraction of the 21st Century Scholarship—if they show financial need and complete between:

- ▣ 24-29 credits by the end of the first year;
- ▣ 48-59 credits by the end of the second year;
- ▣ 72-89 credits by the end of the third year.

Students will not be eligible to receive either the 21st Century Scholarship or the FOB award if they complete *fewer than*:

- ▣ 24 credits by the end of the first year;
- ▣ 48 credits by the end of the second year;
- ▣ 72 credits by the end of the third year.

Students who do not complete at least 30 credits each academic year for the first three years of college can earn their way back into the program by taking summer courses or additional credits

during the academic year to catch up to required levels.

Using Your 21st Century Scholarship

3 Make Satisfactory Academic Progress (SAP) as determined by their institution.

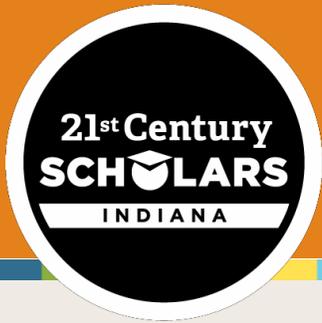

At Indiana's public colleges and universities, making SAP includes staying on pace to graduate and completing a degree within a maximum time frame. SAP also includes maintaining a minimum cumulative grade point average (GPA) and successfully completing a percentage of cumulative attempted coursework. Institutions typically set a limit on incomplete and withdrawals from courses.

Each institution determines its own SAP guidelines. The table that follows includes cumulative GPA requirements, as well as the percentage of cumulative attempted coursework that students must successfully complete, for each public institution in Indiana. This table does NOT include individual institution requirements for staying on pace to graduation and maximum time frames for earning a degree, since—per program requirements—all 21st Century Scholars must complete 30 credit hours per academic year (see "2" above) and to earn a degree within four years to continue earning their 21st Century Scholarship.

Indiana University Bloomington (IUB)

Be sure to look into the following at IUB:

- ✓ **Studying abroad.** Every year, the [Indiana University Office of Overseas Study Offices](#) coordinates hundreds of Overseas Study programs in dozens of countries and on every continent except Antarctica. In addition, many of the schools and colleges within the university sponsor their own overseas study programs.

Many Scholars do not realize that their 21st Century Scholarship can be applied toward a variety of study abroad programs. In addition, the 21st Century Scholars Covenant can also be used to pay for study abroad expenses. To learn more about financial aid eligibility for overseas study, please visit <http://www.indiana.edu/~overseas/first/financial-aid>.

It is more expensive to study overseas than in Bloomington due to extra costs for passports, Visas, airfare, and other incidental expenses incurred while abroad. Although the 21st Century Scholarship and Covenant can be applied towards IU administered, co-sponsored and departmental programs, the award amounts will still be based on the standard cost of attendance at IU Bloomington and cannot be increased to meet the additional expense of study overseas.

The Office of Student Financial Assistance (OSFA) will adjust financial aid budgets based on the estimated program costs established by the Office of Overseas Study so students can pursue additional scholarships, grants or loans to help pay for the additional costs. For more information on institutional and national grants and scholarships specifically earmarked for study abroad, [click here](#).

Scholars who are interested in overseas study should make an appointment to see an adviser in the Office of Overseas Study or individual school or college if interested in a departmental overseas study program. Once you have picked out a program that you want to apply to, it is important that you work closely with the [Office of Student Financial Assistance](#) to ensure that your 21st Century Scholarship and Covenant (if you are eligible) will apply, and to calculate what your total financial aid package will be, so you can determine if you need to pursue other financial aid resources.

The Office of the Vice President for Diversity, Equity, and Multicultural Affairs offers a scholarship for qualified 21st Century Scholars interested in study abroad. Scholarship applications are reviewed by a scholarship committee within the [Office of the Vice President for Diversity, Equity, and Multicultural Affairs \(OVPDEMA\)](#) after the posted deadline. This scholarship is not intended to pay for an entire study abroad program, but rather to assist students in covering some of the costs associated with international study. http://www.indiana.edu/~dema/resources/study_abroad_scholarship.shtml

Indiana University Bloomington (IUB)

Be sure to look into the following at VU:

- ✓ **Summer Bridge Program** at VU helps incoming first-year students experience a positive transition to college. Program participants have the opportunity to get acquainted with VU's campus and get a head start on their academic goals by taking two to three summer courses for credit. Students are encouraged to apply early, as limited space is available. For more information and instructions for applying, visit www.vinu.edu/content/summer-bridge-program. Interested Scholars should contact Penny Kirk at (812) 888-4149 or hclausman@vinu.edu.
- ✓ **The Student Success Center (SSC)** works with students—especially those undecided on a major or in need of academic development—to help them define, clarify, and achieve academic, personal, and professional goals. SSC staff provide students with additional academic advising and academic coaching; referrals to other campus resources; a Student Success Seminar Series; and outreach, support, and encouragement to help keep students on track to earn their degrees.
- ✓ **Labs and Tutoring.** VU offers a variety of free tutoring to students through its Writing Centers, Reading Labs, Math Labs, and within some academic departments. A list of tutoring and lab locations and hours can be found at: www.vinu.edu/content/tutoring-and-labs.
